SUPPLEMENTARY INFORMATION:

Agenda

The Ecosystem-Based Fishery Management (EBFM) Committee will receive an update on EBFM public information workshop plans, possibly meeting with a contractor chosen to facilitate the workshops. They will discuss potential National Standard 1 issues about managing catches by stock complex without specifying MSY for individual stocks. The Committee will also discuss and develop a plan for a mock EBFM Management Strategy Evaluation exercise as well as discuss and develop recommendations for 2022. Other business will be discussed as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.
